The Circuit management reserves the right to alter this information or to cancel the day without notice and accept no responsibility for any loss or inconvenience howsoever caused.

Important notice – this is a day to test your vehicle only – it is not a race day and as such please make yourself aware of other vehicles on track. These may be faster or slower than you, so it is important to allow necessary room through corners etc. and be observing at all times.

Even more important is the observing of the red light or red flag. If a red light/flag  is displayed you must immediately cease driving at speed and proceed slowly, without overtaking, and with maximum caution to the pit lane and be prepared to stop should the track be blocked.

Marshals will be monitoring driving standards and if anyone is deemed not to be driving responsibly – the black flag will be shown to that individual who must return to the pit lane, to see a circuit representative. This could result in you losing your test session – no refund will be given.
