5.14.1 The minimum weight of a car including the driver who completed the final stint of the race must not be less than 860kg ~~840kg~~.

If a car has been damaged during the race and has lost bodywork, then a maximum 3kg tolerance may be applied by the Scrutineer/Technical Adviser. Ballast may be used but must be added before the car takes to the track at the start of qualifying or a race. The minimum weight may be changed by the organisers giving 14 days notice of any change to all registered teams.

**Reason(s):**

In accordance with the provisions of Art. 5.14.1 of the Championships Regulations, the Championship Organisers reserve the right to change the minimum weight provided that 14 days notice of any such change is given to all registered teams.
